

<b>HMS Diary 1911</b>	
Saturday 7 <sup>th</sup> January	Put up nest box for tits on shed at end of garden. Received camera. Saw Starling with yellow beak.
Sunday 8 <sup>th</sup> January	In garden (afternoon). Saw peculiar Starling, tail, back & wing cream coloured, head & breast normal, but with light markings. Starlings & tits on suet in pear tree. Starling looking in nest box.
Monday 9 <sup>th</sup> January	Lecture Field Stream (?) Club. Met Mr Neale.
Monday 16 <sup>th</sup> January	Lecture Dr Paterson.
Saturday 21 <sup>st</sup> January	Many Starlings about with yellow bills.
Monday 23 <sup>rd</sup> January	Saw Thrush on the tree in front of Howell's singing, 1.0pm.
Friday 27 <sup>th</sup> January	Saw a Sparrow Hawk hung up outside the wood. Met Keeper. Went back past Waterhall. Saw only Moorhens. In Waterhall Wood saw old Goldcrests nest at the Cross drive.
Saturday 28 <sup>th</sup> January	Cycled to Llandaff & walked over to Maesllech Wood, via Radyr Quarry. On top of the hill between Radyr & Maesllech Farm, we saw a number of "crows" in a tree, & on getting nearer, when they flew, we saw that two were very much larger than the rest, & flew away separately in an opposite direction. Were they Ravens? Also saw a large flock of Peewits & Golden Plover.
Saturday 4 <sup>th</sup> February	Went out to Llandaff & with Bert over to Radyr Quarry. Saw a Dabchick on the river close to the Rly. Bridge. Saw a Marsh Tit in Q (Quarry) Wood.
Sunday 5 <sup>th</sup> February	Saw two pairs of Chaffinches in garden. Spring plumage.
Saturday 18 <sup>th</sup> February	Went out with Ingram & Short to Llanishen by train & then walked over Cefn On. Saw several lots of primroses in bloom. Coming back saw Jays in Wild Park. Rainy
Wednesday 1 <sup>st</sup> March	Saw a pair of Mistle Thrushes building in poplar.
Thursday 2 <sup>nd</sup> March	Watched the Mistle Thrushes at midday. Saw both birds on. Went over to the nest for a few seconds there seemed to be a few bits of grass in the fork.
Friday 3 <sup>rd</sup> March	Mistle Thrushes about in the morning & at midday.
Saturday 14 <sup>th</sup> March	Went out to Welsh St Donats with Ingram & Short. Rained the whole time. Saw a pair of Grey Herons flying over the small pond when we were about half a mile away. Only one or two duck on the large pond but there were a fair number on the small pond, Teal & Mallard. There were a lot of small duck but I could not say whether they were Teal or Wigeon. Ingram had a try with the telephoto but it was no good. On the big pond saw some frog spawn with the tadpoles hatched & fairly large inside & saw a toad with a leech on its neck.
Sunday 5 <sup>th</sup> March	Mistle Thrushes not seen either yesterday or today.
Monday 6 <sup>th</sup> March	Mistle Thrushes about again today. Saw the pair near the nest <del>xxxx</del> day one bird carrying a bunch of grass sparrows mobbing them.
Friday 10 <sup>th</sup> March	Mistle Thrushes about everyday this week but they don't do much building, though it is very mild.
Saturday 11 <sup>th</sup> March	Went out in aft(ernoon) with Ingram to Green hill. Many of the trees were blown down & some cut. One I photo'd from last year is cut. Not so many Rooks, some sitting but I think only shaping the nests. Tried telephoto of nests from ground but all Rooks cleared, not one left. Wasted 1 hour, 4/5 came back behind us but went in about 10 minutes. Photo'd Jews Ear fungus F22, 5secs, S.R.O. Saw Fieldfares. Went to R. Quarry & through wood, no nests. Pair Goldcrests. At 6.40am Went with Ingram & Short to Wild Park. Rained most of the time. Saw Goldcrest, Jay, Green Woodpecker. Hundreds of Greenfinches roosting in laurel. Mistle Thrushes built a good deal today.
Sunday 12 <sup>th</sup> March	Mistle Thrushes building hard today. Raining all day.
Wednesday 15 <sup>th</sup> March	Cycled off to reservoir fields at 6.0am. Saw 3 pairs of Lapwings but I don't think they have started nesting yet. The(y) mobbed a pair of Carruon Crows which were about. Saw a number of gulls on the water. On the way up I saw a thrush which every now & then when singing would whistle like an exaggerated Blue Tit.

Saturday 18 <sup>th</sup> March	Wild Park – 6.0am. 4 thrushes nests, one nearly finished. Others not lined. Two last Sat are old ones I think. Saw pair of duck in the wood. ----- Mistle Thrushes building this am has not been about all the week. Aft wet.
Sunday 19 <sup>th</sup> March	Mistle Thrushes building all day.
Thursday 23 <sup>rd</sup> March	<u>Wild Park</u> 6.0am. No nests altered at all. Nothing fresh. Short saw Kingfisher. Saw ducks again. <u>Reservoirs</u> . 2 Plovers “xxxxatchings”. Saw Heron, B.B (Black-backed) & Herring Gulls, Crows & Hawk. Ingram saw Woodcock in the little wood.
Saturday 25 <sup>th</sup> March	6.0am morning. W (Wild) Park. Nothing altered & nothing fresh. Reservoir. Then out to Coed-y-Gores. Dipper nest under bridge again. Caught the bird on one egg. Aft. Went out to phot Dipper nest, F11, 5 min, it was dull when I took mine (S.R.). Several snow showers. Went round the old trees in Llanrumney Park, but found nothing. Magpie nest part built Kings Wood.
Monday 27 <sup>th</sup> March	Went out at 7.0am to see that dipper was alright. 3 eggs (bird sitting).
Tuesday 28 <sup>th</sup> March	6.00am went out to dippers nest. Ingram photo'd it (5 min, F11, 2ft mag.rubbon(?). 2 eggs only (cold), bird flew under bridge while we were there. Mistle Thrush sitting at midday,
Wednesday 29 <sup>th</sup> March	Went out at 5.30am to Cefn Mabley Park. Dippers nest there finished but no eggs. Saw Jackdaws, Jay, Magpies, crows & several spotted (2) woodpeckers. Coed-y-Gores Dippers nest. 3 eggs. Bird siting. Saw a pair of Grey Wagtails xxxx xxxx. Saw hawk attack a Partridge xxxx. Saw flock of Redwings.
Thursday 30 <sup>th</sup> March	Wild Park 6.0am. Thrush nests found 18 <sup>th</sup> (Shorts) one old, one built up but not lined, one I found nearly finished & I think deserted. One on west side is now lined. Two others nest just started, one may be a Mistle Thrush.
Friday 31 <sup>st</sup> March	M. xxxx. Cycled out. I left bike and walked to Duck Wood. Found one nest two egg xxxx down yet & another which I think is just started. Saw pair Cole Tit in the wood. Saw many crows & magpies. Wind changed to SW today. Wind E before.
Saturday 1 <sup>st</sup> April	Wild Park. Went up at 6.0am. Walking through N end of wood Ing (Ingram) saw a Robin with a leaf, so we watched & saw him go to an old stump, the nest was just started. Saw a Song Thrush building in tree on edge of stream at top. Thrush west side sitting but no eggs, nest is finished. Ing saw a Chiff Chaff. It was near the bridge & we heard its note. One of nests found 30 <sup>th</sup> is a Thrushes & is lined. Other (Mistle Thrush?) not added to. I found a Blackbird nest just started. Coming back I saw a Chiff Chaff on the evergreen on side of Botanical Pk.
Monday 4 <sup>rd</sup> April	Wild Park 6.0am. Robin nest nearly finished. All nests building added to, and we found two more Thrushes & a Blackbirds partly built. Thrush on W side has 2 eggs. I think I have found the place where the Duck is going to nest.
Tuesday 4 <sup>th</sup> April	Went out at 6.0am, Bert, Ing & I to photo dipper nest under Llanedarne Bridge. Bird was on, but no eggs. Photo F11 SRO 1ft Magnixxxx. Coed-y-Gores dipper pulled out.
Wednesday 5 <sup>th</sup> April	Went to W.Pk (Wild Park) to photo the Grass Snake and Blindworms (F22, 6secs) SRO (F16, 3secs). Very cold and snow. Thrush now has 4 eggs, everything else not touched. Saw pairs L.T.Tits.
Thursday 6 <sup>th</sup> April	Snowing all the time. Llandaff 5.30am with Bert to R (Radyr) Quarry & photo'd Wren (cock's nest) under old tree. Thrush 3 young about a day or two old do. 1 egg. Blackbird 1 egg all at bottom near well. Quarry Robin 3 eggs, Thrush 2. Saw Wheatear from under block of stone. Robin 3 eggs on R.(River) bank.
Friday 7 <sup>th</sup> April	Went out to Llandaff at 5.30am & with Bert to Waterhall. Saw pair of Dabchick & a pair of Wild Ducks on the top end. Both ducks flew away when we got near. Found what we think may be the Dabchick nest. I walked about, but found nothing else. Nothing in wood except Carrion Crow nest partly built & saw Goldcrests.

Saturday 8 <sup>th</sup> April	Hensol. Went to Hensol this afternoon. On getting up to the Heronry found a number of broken eggs about, some hatched & others with yolk on them. I climbed up & found that out of the six nests only two (as far as I could tell) contained anything, three were empty, the one which has 5 now contains 3 young, one egg with two young one just coming out & another egg chipped. In the nest which had eggs & young there were young. One I couldn't see into but I don't think there was anything in it. There were more than two pairs of herons.[Hensol Farm, Pontyclun. Saw Keeper Roberts] <b>xxxx</b> away from the tree however. Picked up several pieces under the other tree, but the birds were <b>xxxx</b> alright. Picked up dead rook & crow. Bert got up to rooks nests. 4.4.
